

## Region 7 Recognition Breakfast

April 16, 2019  
8:30 AM – 10:00 AM

## Celebrating 11 Years of Success!

Welcome,

Thank you for attending today's celebration.

The JAG (Jobs for America's Graduates) model is a comprehensive competency based program focused on the academic attainment and development of essential skills needed to attach successfully to post-secondary education, advanced training and/or the labor market. The Western Indiana Workforce Development Board was one of the first boards in Indiana to bring JAG to area high schools when the program began in Indiana. Sullivan High School and Terre Haute North High School partnered with the Board in 2008-2009 to launch the program.

Since that beginning, the local program has grown from two to nine area high schools. These schools include: Northview High School, Riverton Parke Junior/Senior High School, Sullivan High School, Terre Haute North Vigo High School, Terre Haute South Vigo High School, West Vigo High School, Cloverdale High School, Parke Heritage High School, and North Putnam High School.

Our local JAG network now serves more than three hundred students annually. Through the hard work of our JAG Specialists, school administrators, local employers, labor, government and community based organizations these area programs continually exceed national "5 of 5" JAG program performance measures. For example, the graduation rate for the regional JAG program last year was 97%.

Over the past eleven years JAG of Western Indiana has positively impacted the lives of approximately two thousand high school students throughout our region. The achievement of such success requires the support and dedication of numerous people and organizations.

Thank you for attending, we hope you enjoy the event and we thank you for your continued support of the JAG Program.
